

17TH CONGRESS OF WORLD FEDERATION OF INTERVENTIONAL AND THERAPEUTIC NEURORADIOLOGY

6 - 10 October 2024 • New York Hilton Midtown

Clinically Oriented Neurovascular Anatomy Lecture Series

as a part of the WFITN 2024 Congress in New York, USA

Anatomy 1

Monday, October 7, 2024 | 07:30-08:30

07:30-08:00 Basics of neurovascular embryology

Takahiro OTA

08:00-08:30 Arteries of the temporal fossa, the cavernous sinus and the orbit

Maksim SHAPIRO

Anatomy 2

Monday, October 7, 2024 | 17:00-17:45

17:00-17:20 The subcallosal artery and the AchorA

Michael SÖDERMAN

17:20-17:45 The circle of Willis with perforating arteries, basilar variations

Masaki KOMIYAMA

Anatomy 3

Wednesday, October 9, 2024 | 07:00-08:00

07:00-07:30 The supratentorial and deep venous system

Ronit AGID

07:30-08:00 The infratentorial venous system

Michihiro TANAKA

Anatomy 4

Wednesday, October 9, 2024 | 17:00-17:45

17:00-17:20 The craniocervical junction and the pharyngooccipital system

Seon-Kyu LEE

17:20-17:45 Arterial vascularization of the cerebellum and brain stem

Serge BRACARD

Anatomy 5

Thursday, October 10, 2024 | 07:00-08:00

07:00-07:40 Arterial vascularization of the spine and spinal cord

Georges RODESCH

07:40-08:00 Venous anatomy of the spine and spinal cord

Eytan RAZ
